

bathtub vik 1600 white matte

Item number: 20081040

An exclusive bath made of first-class materials and with the latest technology. Exciting contrasts between the satin matt surface and thin, fine lines on the edges of the bath that meet the robust glossy black stainless steel feet. Every bath is manufactured by hand from our natural Solid Surface material. Supplied with chrome bottom valve, drain pipe and adjustable feet.

Standards and classifications		Outlet drain	Yes
ETIM	EC011609	Drainage pipe	Yes
EN standard	EN14516	Packaging dimensions and weight	
CE marked	Yes	Package height(m)	0,830
Product dimensions and weight		Package width (m)	1,700
Bathing depth (mm)	492	Package depth(m)	0,800
Height min. (mm)	690	Package weight(kg)	286,000
Length (mm)	1600	Miscellaneous	
Width	700	Model	Freestanding bath
Net weight (kg)	246		
Water volume (l)	420		

Care instructions

Bathtubs in solid surfaces are made of a solid composite material consisting of minerals and acrylic. Clean the tub with a damp cloth and mild detergent, such as Clean & Shine bathroom. For more difficult stains, it is possible to use fine sandpaper. Then polish the tub with the polishing pad that comes with the tub.
